

Cookie Policy

This page sets out our policy on using cookies.

What are cookies?

A cookie is a file that is saved by your browser when you visit a website. It enables certain information about your visit to be stored by the site. Some cookies are essential in order for a website to run as you would expect it to while others allow us to provide you with a better and richer service.

Our cookie policy

The aim of using cookies is to provide you with an optimised 'user experience' as we understand your need to find the most relevant information quickly and easily.

We may use cookies to help you navigate the website efficiently and perform certain functions. For example, to remember your log in details to save you from having to type them in every time you visit us.

Please note that if cookies are not enabled on your computer, it could mean that your experience when logged in to our website will be limited.

Continued use of the site means you agree with the usage of cookies as detailed above.
